ELECTION OF SPECIES

- 1) Claims 1-22 and 40 have been canceled.
New claims 23-39 and 41-67 have been added and are under prosecution.
- 2) The application contains claims directed to the following patentably distinct amylin agonist analogue species of the claimed invention: (a) SEQ ID NO: 12; (b) SEQ ID NO: 10; (c) SEQ ID NO: 8; (d) SEQ ID NO: 14; (e) SEQ ID NO: 15; (f) SEQ ID NO: 16; and (g) SEQ ID NO: 17. Each of these species requires a separate and non-coextensive structure or sequence search.
- 3) Applicants are required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed. Each sequence species is structurally different from the other and requires a separate search. Currently, claims 23, 24, 27-32, 33, 34, 37-39 and 53-63 are generic.
- 4) Applicants are advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, Applicants will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, Applicants must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should Applicants traverse on the ground that the species are not patentably distinct, Applicants should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the Examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C 103(a) of the other invention.

- 5) Papers related to this application may be submitted to Group 1600, AU 1645 by facsimile
